

Instrument Care Reminders

Before putting your instrument back in its case after playing, do the following:

- Carefully remove the reed and blow air through it. Return to reed case.
- Remove the bocal and blow air through the larger end to remove excess moisture.
- Take the instrument apart in the reverse order of assembly. Swab out each section with a cloth swab or cleaning rod. Drop the weight of the swab through each section and pull it through. Return each section to the correct spot in the case.

F scale - 1 flat
Bb
ARP: F - A - C

- = Open
- = Pressed down
- ◐ = Half-hole covered

The most common fingering appears first when two fingerings are shown.
