

Instrument Care Reminders

Before putting your instrument back in its case after playing, do the following:

- Remove the reed, wipe off excess moisture and return it to the reed case.
- Remove the mouthpiece and wipe the inside with a clean cloth. Once a week, wash the mouthpiece with warm tap water. Dry thoroughly.
- Drop a weighted chamois or cotton swab into the bell and pull it out through the barrel.
- Carefully twist off the barrel and dry off any additional moisture. Place it in the case.
- Gently twist the upper and lower sections apart, with the bell still attached. Place the upper section in the case.

E scale - 4 sharps
F# C# G# D#
ARP: E - G# - B

- Remove the upper section from the case.
- As you remove the upper section, be sure to dry the inside of the case.
- Your fingers may be sore. If you play for long periods, you may damage your instrument.

○ = Open
 ● = Pressed down

Alternate fingerings are used in certain situations to allow for smoother technique. These are shown to the right of the more common fingerings.
